

# PANKAJ MANCHANDA

## Director-Level Operations & Business Transformation Leader

FinTech | Compliance Operations | AI-Enabled Productivity | Scalable Operating Models | BPO & Vendor Strategy  
+1-925-623-3377 | Pankaj\_Manchanda@icloud.com | Open to Nationwide U.S. Opportunities | Remote, Hybrid & Relocation

### EXECUTIVE PROFILE

Director-level operations and business transformation leader with 26+ years of experience building, scaling, and optimizing operations across FinTech, digital assets, e-commerce, real estate, BPO, and international business environments. Proven ability to convert complex workflows into scalable operating systems that improve productivity, reduce cost, strengthen compliance, and support growth. Combines hands-on COO experience, BSA/AML and KYC operations expertise, vendor/BPO management, and practical AI implementation using automation, LLM workflows, and low-code tools.

### EXECUTIVE VALUE PROPOSITION

- Operations leader at the intersection of business operations, compliance execution, automation, and AI-enabled productivity improvement.
- Experienced in diagnosing operational bottlenecks, redesigning workflows, implementing technology-led process improvements, managing vendors, and building scalable operating infrastructure for regulated and growth-stage businesses.

### CORE COMPETENCIES

| OPERATIONS & TRANSFORMATION                                                                                                                                                                                                                                                                                                | AI-ENABLED OPERATIONS                                                                                                                                                                                                                                                                             | COMPLIANCE & RISK                                                                                                                                                                                                                                                           |

### SELECTED TRANSFORMATION IMPACT

- Built and operated a FinCEN-registered digital asset MSB for 7 years with zero BSA/AML regulatory violations.
- Scaled e-commerce operations to 55,000+ annual orders while reducing operating cost by 30%+ through BPO redesign and workflow automation.
- Designed AI-enabled automation workflows across compliance reporting, back-office documentation, customer onboarding, and operational reporting.
- Led multi-function operations spanning compliance, finance, technology, customer operations, fulfillment, and regulatory reporting.

### PROFESSIONAL EXPERIENCE

#### AI Operations Transformation Advisor | Independent Consulting / Self-Directed | Remote | FinTech, Real Estate & Early-Stage Tech

Jan 2025 - Present

- Advise early-stage and legacy businesses on AI-enabled operations redesign, focusing on productivity improvement, manual workload reduction, reporting speed, and scalable process architecture.
- Audit workflows across compliance, onboarding, documentation, customer operations, and reporting to identify automation opportunities and operational bottlenecks.
- Design and deploy workflow automation using LLMs, n8n, Make, Replit, Bolt, and API-based orchestration to reduce manual processing and improve turnaround times.
- Build practical AI adoption roadmaps for SMB and FinTech businesses, aligning automation initiatives with cost reduction, risk control, and operational scalability.

#### Partner - Operations & Investment | Varad Infra | Ujjain, India | Residential & Commercial Real Estate

Jan 2023 - Present

- Oversee end-to-end project operations including land acquisition, contractor negotiations, regulatory approvals, construction oversight, budget discipline, and post-completion audits.
- Direct design, layout, vendor selection, and interior finish decisions to align project quality with target market positioning and long-term capital appreciation objectives.

#### Chief Operating Officer | Sharp Technologies Inc (InstaUSDT) | Irvine, CA | FinCEN-Registered MSB

Jul 2015 - Dec 2022

- Led full-spectrum operations for a FinCEN-registered digital asset MSB, overseeing compliance operations, technology workflows, customer operations, finance coordination, and regulatory reporting.
- Built BSA/AML operating infrastructure from the ground up, including KYC, CDD, EDD, transaction monitoring, SAR/CTR workflows, audit readiness, and FinCEN reporting discipline.
- Designed compliance-aware onboarding and transaction workflows aligned with FATF virtual asset guidance, balancing customer experience, risk control, and regulatory integrity.
- Maintained 7 years of operations with zero regulatory violations through disciplined controls, process ownership, and proactive compliance governance.

- Drove revenue growth by aligning operational execution with regulatory readiness, customer trust, and market opportunity in the early digital asset ecosystem.

### **Operations Partner | KR Management Services LLC | Las Vegas, NV | D2C E-Commerce & Wholesale Apparel**

*Oct 2008 - Jun 2015*

- Scaled operations from startup to 55,000+ annual orders by engineering an integrated model spanning digital marketing, BPO partnerships, warehousing, inventory management, and customer operations.
- Reduced operating costs by 30%+ through targeted BPO restructuring, workflow automation, and process standardization while improving fulfillment speed, accuracy, and margin.
- Established scalable automation-led operating frameworks for order management and customer service, enabling growth without proportional headcount expansion.

### **Director of Operations | Horizon Expo LLC | Las Vegas, NV | International B2B Exhibition & Events**

*May 2005 - Sep 2008*

- Founded and managed a boutique international exhibition company, executing three pan-India real estate expos within 18 months including a landmark event at Madison Square Garden, New York.
- Directed multi-vendor operating ecosystems covering logistics, cross-border delegate management, regulatory permits, sponsor coordination, venue operations, and stakeholder communications; earned three FIA industry excellence awards.

### **Account Manager - Enterprise Technology | CaminoSoft Corp | Westlake Village, CA | ILM & High-Availability Solutions**

*Apr 2002 - Apr 2005*

- Managed enterprise accounts across mid-market and Fortune 500 clients, supporting technology adoption and channel partnerships with Dell, EMC, Novell, and Ingram Micro.

### **Business Development Officer | Soffia Tech Inc | Fremont, CA | Staffing & BPO | Fortune 1000**

*Feb 2000 - Mar 2002*

- Built and managed strategic account pipelines across staffing and BPO verticals, generating repeat Fortune 1000 business through consultative relationship management.

## **EDUCATION & PROFESSIONAL DEVELOPMENT**

---

Master of Commerce | University of India | 1997

AI Generalist Certification Program | In Progress | 2025-2026

Short-Term Momentum & Price Action Trading Certification | 2025

Languages: English (Professional), Hindi (Native)

## **ADDITIONAL EXECUTIVE DIFFERENTIATORS**

---

- Founder/operator background with direct ownership across operations, compliance execution, vendor governance, customer operations, technology workflows, and finance coordination.
- Strong fit for regulated, growth-stage, and transformation-heavy environments requiring disciplined controls, scalable processes, and practical automation.
- Experienced in building lean operating models where productivity gains come from process redesign, outsourcing strategy, workflow automation, and AI-enabled execution.
